ACL F15 & T20 Super Bash League New Rules – 2026

All the rules from ACL main league will apply with a few notable exceptions and additions. Team uniform rule is relaxed but wear proper sports attire (no shorts and slippers).

Other Significant Rule Changes

Super Sub

- Teams can utilize a super-sub during a game.
- Playing 11(T20)/9(F15) and super-sub should be named at the start of the match, i.e., before the toss. ACL Scoring app has the ability to add up to 12 players for T20 SB and up to 10 players for F15 SB.
- A super-sub can **bowl OR bat (not both)** during the course of the match. (they can field at any time). Maximum number of fielders on the field is always 11 for T20 and 9 for F15 at any point during the game.
- Both captains and umpires should be informed about the super-sub and they (the player) should be clearly identified.
- The umpires need to take a picture of the entire playing 12 (for T20) or playing 10 (F15), if super sub is playing.
- The super-sub (or any players for that matter) should be a part of only one team in Super Bash Leagues T20 and F15. Players should not be representing any other team in Super Bash. This applies for both T20 and F15 Super Bash Leagues. Violations will result in severe penalties including suspensions as in Code of Conduct.
- The number of all-out wickets still remains at 10 (T20) and 8 (F15) for a completed inning.
- Max number of overs per bowler are still the same for T20 and F15.
- The super-sub (and the playing 11/9) have to be at the ground according to the rules mentioned in the rule book.
- Late joining player(s) must be at the ground before the start of 6th over (F15) and 8th over (T20) of the first inning of the match and umpires should be informed upon arrival.

Roster Size

- There is no limit to the number of players you can have on your team roster. However, a fee of **\$25 per player** will be charged for each additional player after the **22nd member for a T20 SB Team** or the **18th member for F15 SB team**.

Super Over

- All tied matches (including league games) will be decided by a super over. Super over scoring should be done on paper as there is no provision in the ACL Scoring app currently.
- This applies to league matches and playoffs.
- Please refer to the ACL master rule book for further information.

Duckworth Lewis Stern (DLS) – for T20 and F15

- ACL will utilize the DLS method for calculating the target score in rain affected matches.

- The [Duckworth-Lewis Calculator](#) web application will be used for this purpose.
- DLS will be used to get the match results, if at least 5 overs are completed in the 2nd innings of the game.
- Please refer to the [ACL DLS Rules](#) document regarding DLS rules and scenarios that is published on the ACL website.

Rain, Washout or Match Called Off Rule

- The rain washout or match called off rule allows for rescheduling for all matches that are unable to be completed without achieving a result. (for any of the above reasons)
 - This means the match could not be played with the minimum number of overs required for a result; or
 - The match could not be decided even after applying the DLS rule (in case of rain); or
 - The match could not be played due to extraneous circumstances (ground unavailability etc.)
- Since the super bash is a small tournament, we will try to make sure teams get to play all their scheduled matches.
- ACL will reschedule washed out matches in the upcoming weeks.
- These matches will be reduced over games (min. 8 overs for F15 and 10 overs for T20) to accommodate all remaining games.
- Teams should be ready to play double headers on such rescheduled weekends (Sat and Sun), during the league stage.

Power Play

- T20 Super Bash matches will follow the same power play rules as the main league.
- There will be no power play in F15 Super Bash matches as we utilize grounds of various sizes.

Player Eligibility

- All players must join a team by Friday and be on the team's roster before playing in upcoming weekend's matches (Saturday or Sunday) to avoid any last minute issues.
- Player eligibility will be staggered to accommodate for the fewer number of matches played in Super Bash.
- For a player to be eligible to play in the playoffs, they should have played at least 1 match in the league stage. (30% of the league games).
